1. Applicant's election with traverse of Group I, claims 1-31 and 37-46, in Paper No. 6 is acknowledged. The traversal is on the ground(s) that the method claims and the apparatus claims include the same control steps. This is found to be persuasive. Accordingly, the requirement for restriction is withdrawn and the non-elected claims 32-36 are rejoined.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 5, 6 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Kurosawa et al.

See abstract.

4. Claims 2 through 4, 7 through 31 and 33 through 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 37 through 46 are allowed.
